THE PENNSYLVANIA OF THE UNITED STATES. Painfully Interesting Scenes—Mourful Character of the Procession—Harsh Treatment of Soldiers—Widows and Mothers—The Pension Office—Recommendation Needed.

The 4th of March and the 4th of September are the two days annually set apart by the powers that be for the payment of the pittance to the maimed veterans who have borne the flag of the republic in a hundred battles, and marched beneath its folds until they received the total wound from saber, shot or shell, which honorably doomed them to the deprivation of one or more of their limbs, and made them the pensioners of the Nation for whose existence they risked their lives.
